HMRC
Her Majesty's Revenue and Customs

Strengths:
The UK government; the Army,
Navy and Airforce.
The police; the judiciary; the legislature;

Let battle commence!

HMRC has bankrupted Mike and sent him a bill for £300,000. Can the Chess Challenge continue?

Mike's Case

HMRC wants to put 20% extra on your entry fees in value added tax, called VAT.

Over 100 sports are exempted, but chess, the premier mental activity, is not on the list! This is not fair!

Much of the tax paid could be claimed back through the schools, so the government would not make any extra money - but the time spent on paperwork would be huge - and all unpaid!

The Challenge has provided chess to half a million children in the last 20 years. If it closes, all our favourite mascots - Cheepy, Chirpy, Tiger, Worm not to mention Spooky, Penguin, Squirrel and others will be no more!

DON'T LEAVE ME!
